

EUROPEAN BAROMETER OF BETTER CONSUMPTION

SECOND-HAND PURCHASES

Episode 2 / 2022

FRANCE

SPAIN

PORTUGAL

It is a certainty: Europeans have become attentive to responsible consumption. In this fundamental movement, the durability of products will become an essential criterion in 2022, as will price, driven by the economic context. The second-hand market has gained 50% in popularity in one year and 1 of 2 Europeans wants to buy even more this year. To accelerate this dynamic, price, trust and associated services, particularly in terms of payment, are the key levers.
